

Official Terms and Conditions of Use

The Someone Cares! Referral Network is comprised of registered volunteers representing crisis pregnancy counselors, adoption specialists, Christian counselors, and others who show their deep care for you, by responding to your incoming requests typically within 24 hours. Since an email notifying them of your request goes right to their desk, you can be assured that your request will be handled professionally and confidentially. We are not doctors and cannot provide medical prognosis or diagnosis online. Neither are we professional psychologists or psychiatrists, thus we cannot offer mental or professional counseling assistance online. We are Christian volunteers who care and want to provide you with compassionate encouragement and referrals to locations near you that can assist you in your time of need.

If you need help in making your choice or simply want to ask a question of a live human who cares about your situation, please complete this quick easy help request. By selecting an available location, your information will notify a live CPC assistant near you.

Only registered crisis pregnancy assistants volunteer with the SOMEONE CARES! REFERRAL NETWORK. These provide a response email response to your request and make themselves available by telephone as needed for personal answers to your crisis needs. Unless we specifically disclose it to you at the time of collection, CPCLINK.COM does not provide any personally identifying information, regardless of its source, to any third party EXCEPT in the case when a request for help is sent to our referral system which involves a sharing of your request message with the assigned registered and password-protected referral agent or the administrator of CPCLINK.COM only. The collection of data helps us insure that you are helped in a timely manner and as a legal archive of the network.

If you are concerned about privacy, consult our terms of service page before submitting your request. We do pledge to you to respect your privacy as best we can considering the referral system is based upon emails as the primary form of communication.

Submitting this request will archive your request on our secure database and contact the selected assistant or appropriate autoresponder for those located in an area not served by a live assistant at this time. We cannot be held liable in the event someone other than yourself reads your mail or views the web pages you have visited.
